Our Conference Space. Your Way

Our well-equipped conference facilities can be set up for your delegates in several ways.

Your dedicated Event Manager will collaborate with you and suggest which of our five layout types is best, so your participants can get the best out of your event.

Theatre

maximum capacity of 50

Traditionally used to present to a large audience. Chairs are arranged in rows facing a staging area and the layout allows the room to be used to its maximum occupancy, of 50 guests.

Cabaret

seats up to 25

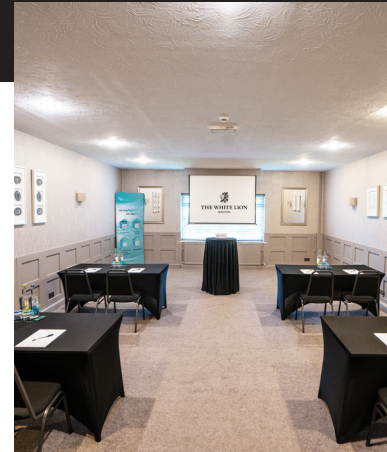

Suitable for large groups. The chairs are all positioned 2/3 the way around round tables, leaving an open end on each. Each delegate faces the host or presenter, maximising engagement. Our conference space can seat up to 25 attendees.

Boardroom

seats up to 16

Delegates will be seated around a large table. Accommodates up to 16 people, while keeping everyone engaged and focused.

Classroom

seats up to 16

Ideal for small groups and seminars. With rows of chairs facing a podium, this arrangement encourages interaction among attendees. The classroom layout is designed for maximum engagement and participation. This layout can accommodate up to 16 delegates, and tables can be moved around to suit your needs.

U-Shape

seats up to 14

A great option for small to medium-sized meetings and can accommodate up to 14 people. This layout is ideal if you want to encourage interaction between participants, or if you have visual aids that need to be distributed.

*Banqueting options are also available for any type of event - from product launches to seminars. This is ideal for large groups, with a maximum capacity of 50.
